# Survey Evaluation Results

Dear Mr./Dear Ms Herbig,

In the attachment you will find the evaluation results of the survey College Algebra.

Questionnaire LSP25:

The overall indicator is listed first. It consists of the following scales:

The overall indicator is followed by the individual average values of the scales mentioned above.
In the second part of the analysis the average values of all individual questions are listed.

If you have any further questions do not hesitate to contact the evaluation department.

## 1. Student Feedback

1.22) If yes is selected: What else would you like to say about your learning experience in the course?

- This course was fairly challenging starting off. I was definitely putting in up to 10 hours outside of class, however I did not graduate high school and got my GED at seventeen/eighteen. I haven't done much schooling since so maybe that's why I felt like it was moving really fast at first but after our first exam it seemed like Mr. Herbig pulled back a bit and I found that extremely helpful. I was really grateful he was paying attention to us and tailored his lectures to suit our understanding a bit more. Overall, I had a fantastic experience.

| He is a great TA and tried his best to get the class to ask any questions that we had for problems. He made it very aware that this is a place to ask questions so we were never confused on the test and if one solution wasn't working for someone hed try and explain it in a different way. |
| Recitation helped out immensely when I had issues with Euclidean Algorithm |
| extremely helpful and dumbed down the content extremely well whenever need be. Very chill guy , and easy to ask questions |

| Nothing else to say. Thank you for your time. |
| For labs, the professor worked well with helping students' study for homework, quizzes, and exams. He goes further in depth with certain questions that needs more explanation. |
| boring and underprepared, had an attitude when corrected by students |

| Chris is a really helpful TA. I wasn't able to attend many recitation sessions due to work, but whenever I did, he explained the topics clearly and made sure to answer any and all questions. He's also very responsive over email, which is really helpful. Overall, he's been very supportive and easy to reach out to. |
| Mr. Herbig always presented the topics we covered in class in a slightly different way which would just help us even more when trying to understand the topic. He has a really good understanding of the materials we have covered in class and was always available to answer questions. |
